Checking, last I heard we were below any threshold of concern. Stay tuned for an email update from Alexas.

By the way Carl, we need to resolve this SBREFA issue - whether or not you have to do a small business panel. If you have some time, let's just talk for five minutes or so.

Greg

Went very well with Janet I think. Steve called in as well. Shaun and I answered some questions from Janet and Debbie. Janet was interested in our schedule and was glad that our FIP would follow after the national rules are final and not be inconsistent. Steve brought up Peter's OMB issue that came up on the refineries rule. We also talked about the necessary and appropriate finding because of high winter ozone. I made sure to let Janet know that we are very appreciative of the OAQPS support we are receiving from and your staff.

Thanks Carl. I'm anxious to hear how the conversation with Janet goes. I think the equity point is a good one.
